

Health Equity Plan Public Meetings

HCPF is committed to ongoing and sustained health equity for all our members.

The purpose of the health equity public meeting is to provide space for providers, members, and community stakeholders to learn about the Department Health Equity Plan, and to provide input and feedback. Our goal is to establish the current state of health equity, and strategically look at innovative ways to improve health outcomes and decrease health disparities for our members in Colorado.

To achieve better health outcomes, stakeholder engagement is critical.

Health equity happens when everyone has equal opportunity to be as healthy as they can be. No one's race, ethnicity, disability, sexual orientation, gender identity, socioeconomic status, geography or preferred language should negatively affect their health care. Health equity work includes removing obstacles to health care access and positive health outcomes.
