COMMUNITY OUTREACH WAITLIST SERVICES PROGRAM

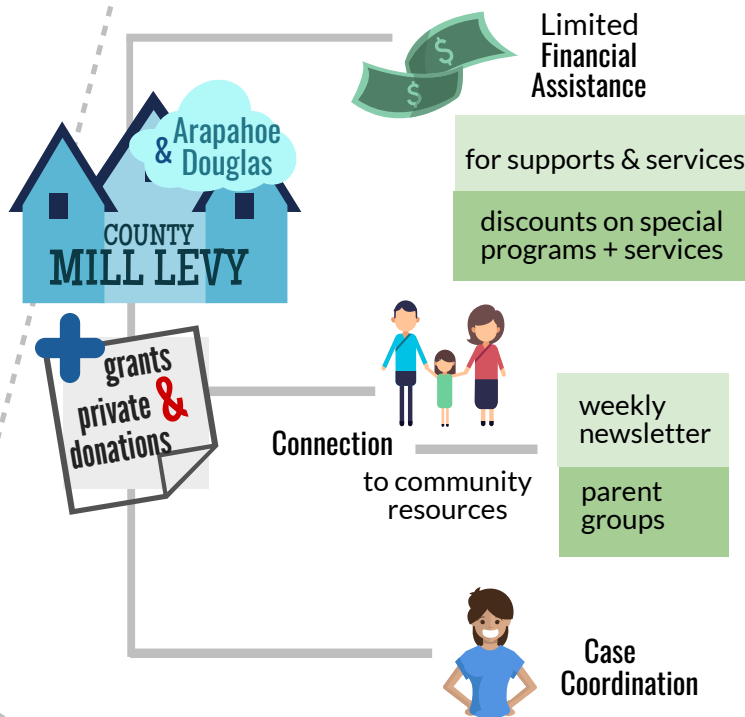

WHAT IS IT ?

Community Outreach Waitlist Services Program is a unique program created by Developmental Pathways to assist individuals with developmental disabilities/delays and their families who are waiting for or whose needs aren't fully met by state or federally funded services.

We help with costs that are beyond those normally experienced by other families.

The primary purpose of the Community Outreach Waitlist Services Program is to support individuals by connecting them with community resources and providing funding for unmet needs.
